

**PERIODIC REVIEW BOARD INITIAL HEARING, 18 AUG 2016
ENCEP NURJAMAN HAMBALI, ISN 10019
PERSONAL REPRESENTATIVE OPENING STATEMENT**

Good morning ladies and gentlemen of the Board. We are the Personal Representatives for ISN 10019, Encep Nurjaman Hambali.

Hambali has attended all scheduled meetings. During these meetings he has been respectful and energetic. He has been most enthused about his PRB. He always smiles and never hesitates to answer any questions we have.

During his time in detention he has learned English, some from his interaction with JTF Staff and some from Rosetta Stone. He also taught himself Arabic, which he then held classes to help teach his fellow detainees. He went so far as to have homework and tests for them. His father and uncles were all teachers, so it came naturally for him.

When programs were offered, he was eager to attend. He enjoys watching the programs Planet Life, Blue Planet and also enjoys the great courses on DVD's.

Hambali has stated he has no ill will towards the U.S. He believes America has diversity and sharing of power which is much better than a dictatorship. He states that he wants nothing more than to move on with his life and be peaceful. He hopes to remarry and have children to raise.

We stand ready to answer any questions you may have.
