

**PERIODIC REVIEW BOARD INITIAL HEARING, 09 AUG 2016
MOHD FARIK BIN AMIN, ISN 10021
PERSONAL REPRESENTATIVE OPENING STATEMENT**

Good morning ladies and gentlemen of the board. We are the Personal Representatives for ISN 10021, Mr. Mohd Farik bin Amin. Over the last few months we have met with him several times. He has been very honest and forthcoming when talking about his past, present and future.

Farik has expressed regret and sorrow to us in talking about his past. He believes he made stupid, hasty decisions, largely attributed to his young age and narrow view of the world.

He now hopes to put all that behind him and start a new peaceful life. He is interested in getting married and starting a family. Speaking of family, he happens to be a member of a large, loving family. This can be seen in the pictures added as exhibits. His family has already pledged to support him if he is transferred.

He has useful skills from his past that he can use to support himself. He spent time working in a factory and also could work in either his brother's or sister's store.

When given the opportunity to participate in the Detainee Socialization MGMT Program, he jumped at the opportunity. While the program was in session, he was able to increase his English skills.

He has enjoyed fitness magazines and watches movies like "The Godfather" and "Guardians of the Galaxy." As you may have noticed, he excels in drawing. In addition he loves to play soccer and jog.

Lastly of note is that he has been a very compliant detainee. His time here has taught him not to judge everyone based on the deeds of a few. He believes you should treat others as you want to be treated.

He has told us many times he is not a threat and only wants the opportunity to go home and start a normal life.

We stand ready to answer any questions you may have.
