

**PERIODIC REVIEW BOARD INITIAL HEARING, 11 AUG 2016
BASHIR BIN LAP, ISN 10022
PERSONAL REPRESENTATIVE OPENING STATEMENT**

Good morning ladies and gentlemen of the Board. We are the Personal Representatives for ISN 10022, Mr. Mohammed Nazir Bin Lap. We will be assisting Nazir in presenting his case this morning.

Nazir has been willing to participate with us, and he looks forward to answering any questions the Board has for him. He has treated us with respect since our first meeting.

Nazir looks forward to getting married and starting a business. With the land (2 hectares) to raise cattle and process oil from palm trees and a small inheritance from his mother (approximately \$6000 (US)), Nazir could leverage his previous business experience as a sugar cane juice salesman, newspaper delivery man and perfume salesman into a profitable venture. He would prefer to return to Malaysia and be willing to participate in any rehabilitation program that would help in allowing his transfer to occur.

Nazir has been a highly-compliant detainee with few disciplinary infractions. He participated in the Detainee Socialization Management Program (DSMP), while it was instituted in his camp. He has told us that he is not a threat to America, and his mindset has changed, since the time before his capture. If he were released, he would say good-bye to his old life, because he feels that he has lost so much since he has been detained (his parents, an older sister and friends).

Thank you for allowing us the time in helping Nazir demonstrate to the Board that he is not a continuing significant threat to the security of the United States. We are ready to answer any questions you may ask.
