Unclassified Summary of Final Determination

<u>Date of Final Determination</u>	<u>Detainee Name</u>	<u>Detainee ISN</u>
03 October 2014	Muhammad Murdi Issa Al-Zahrani	713

The Periodic Review Board, by consensus, determined continued law of war detention of the detainee is no longer necessary to protect against a continuing significant threat to the security of the United States.

In making this determination, the Board considered the uncorroborated nature of the information about the detainee's level of involvement with al-Qaeda, the detainee and his family's lack of ongoing contacts or ties with at-large extremists, the detainee's behavior while in detention, and the detainee's candor with the board about his presence on the battlefield, expressions of regret, and desires for a peaceful life after Guantanamo. The Board considered the Saudi rehabilitation program and is confident in the efficacy of the program for a detainee with his particular mindset. The detainee demonstrated an understanding of the Saudi rehabilitation program and a willingness to participate, and his family also expressed support for the program.

The PRB recommends that the detainee be transferred to Saudi Arabia with appropriate security assurances, as determined by the Guantanamo Detainee Transfer Working Group, for participation in the local counseling and care program.
