Unclassified Summary of Final Determination

<u>Date of Final Determination</u>	<u>Detainee Name</u>	<u>Detainee ISN</u>
15 JUN 2015	Abdul Shalabi	042

The Periodic Review Board, by consensus, determined continued law of war detention of the detainee is no longer necessary to protect against a continuing significant threat to the security of the United States.

The Board acknowledges the detainee's past terrorist-related activities and connections; however, the Board found that in light of the factors and conditions of transfer identified below, the risk the detainee presents can be adequately mitigated. The detainee does not appear to be in contact with any extremists and his family has no known ties to extremism.

In making this determination, the Board was confident about the efficacy of the Saudi rehabilitation program and Saudi Arabia's ability to monitor the detainee after completion of the program and noted the detainee's credible desire to participate in the Saudi rehabilitation program and reintegrate into society. The Board also considered the detainee's well-established family, their willingness and ability to support him upon his return, and their prior success in assisting with the rehabilitation and reintegration of a former Guantanamo detainee. The Board noted the detainee's recognition of his health situation and his commitment to continue his recent efforts to improve it.

The PRB recommends that the detainee be transferred to Saudi Arabia with appropriate security assurances, as determined by the Guantanamo Detainee Transfer Working Group, for participation in the local counseling and care program.
