Zayn al-'Abd Din Mohammed, a.k.a. Abu Zubaydah, (GZ-10016) started training militants in 1989, and built a mujahidin facilitation network that he ran from 1994-1997 recruiting and facilitating the travel of operatives to Afghanistan, Europe and North America. Zubaydah probably served as one of Usama bin Laden's facilitators as early as the mid-1990's, although he never swore *bayat* to Bin Laden because of his primary focus on attacking the US, while Zubaydah wanted to attack Israel for their treatment of Palestinians.
