Unclassified Summary of Final Determination

<u>Date of Final Determination</u>	<u>Detainee Name</u>	<u>Detainee ISN</u>
08 DEC 2016	Yassim Qasim Mohammed Ismail Qasim	ISN 522

The Periodic Review Board, by consensus, determined that continued law of war detention of the detainee is no longer necessary to protect against a continuing significant threat to the security of the United States.

In making this determination, the Board considered the detainee's greater candor from his first hearing regarding his pre-detention activity, which was consistent with the available detainee profile, and that his responses were thoughtful and showed an effort to realistically consider the future. The Board also noted the detainee's extensive efforts to take advantage of opportunities in detention to better himself, to include multiple academic and art classes, as well as positive engagement with mental health counselors. Finally, the Board considered that the detainee no longer appears to be driven by extremist ideology, the detainee has taken steps to sever ties with extremists, and the lack of any recent anti-US statements along with improvement in behavior.

The Board recommends resettlement to a GCC country with a strong rehabilitation and reintegration program and mental health access, consistent with the detainee's stated preferences, with the appropriate security assurances as negotiated by the Special Envoys and agreed to by relevant USG departments and agencies.
