Unclassified Summary of Final Determination

<u>Date of Final Determination</u>	<u>Detainee Name</u>	<u>Detainee ISN</u>
06 JUL 2016	Said bin Brahim bin Umran Bakush	685

The Periodic Review Board, by consensus, determined that continued law of war detention of the detainee remains necessary to protect against a continuing significant threat to the security of the United States.

In making this determination, the Board considered the detainee's elevated threat profile as evidenced by his prior roles in Afghanistan and prior associations, the detainee's insistence that he's had no change in mindset, insufficient information presented to assess the detainee's intent, and contradictory and implausible information provided by the detainee regarding his travel to Afghanistan and Pakistan as well as his activities while there. The Board also noted that there was no indication of any support network to help the detainee upon his transfer and uncertainty as to whether the detainee can implement his plans for the future.

The Board encourages the detainee to be open and candid in communications with the Board. The Board also welcomes information on family or other social support available to the detainee. The Board looks forward to reviewing the detainee's file in six months and specifically is interested in receiving information from the Government of Algeria regarding its plans for him upon repatriation and reintegration support it could provide.
