Unclassified Summary of Final Determination

<u>Date of Final Determination</u>	<u>Detainee Name</u>	<u>Detainee ISN</u>
02 JUN 2016	Karim Bostam	975

The Periodic Review Board, by consensus, determined that continued law of war detention of the detainee does not remain necessary to protect against a continuing significant threat to the security of the United States. The Board recognizes the detainee presents some level of threat in light of his past activities and associations and notes the detainee did not have a realistic vision for his post-detention life; however, the Board found that in light of the factors and conditions of transfer identified below, the risk the detainee presents can be adequately mitigated.

In making this determination, the Board noted that the detainee has been highly compliant while in detention, has not expressed any intent to reengage in extremist activity or espoused any anti-US sentiment that would indicate he views the US as an enemy, and the detainee's credible statements regarding his commitment to live a peaceful life. The Board also considered the detainee's efforts to improve himself while in detention and his ability to provide clear examples to the Board regarding how he has changed while in detention and his appreciation for the opportunities available to him at Guantanamo. Finally, the Board noted the detainee's expressed support for the Government of Afghanistan, the Constitution of Afghanistan, and reconciliation.

The PRB recommends that the detainee be transferred with appropriate security assurances, as negotiated by the Special Envoys and agreed to by relevant USG departments and agencies, preferably to a country with reintegration support. Pending transfer, the Board recommends that the detainee work on a realistic plan for reintegration.
